LACOSTE-The Great Western Rangers led by the hard running of former San Jose State back Raymond Kirby, blanked the Roberts High School All-Stars 26-0, in a semi-pro game played on Eagle field in LaCoste, Sunday night.

Kirby's good running was fortified by the fine defensive play of LaCoste's Coach Glenn Scallorn, playing center for the Rangers and backing the line on defense.

Jack Schultz, Jourdan coach, and Jack Newman, all former Trinity University stars, also turned in good defensive and offensive play.

The Rangers opened the scoring with seven points in the second period, to which they added six in the third quarter and thirteen in the final period.

Eugene Keller Talks To Eisenhower In San Antonio

LACOSTE - Eugene Keller is a local hero among Eisenhower backers in Medina County.

Just before the Republican candidate came to San Antonio, Keller was told the way to meet a celebrity was to "put on the biggest hat you can find and strut."

Keller, who played football under Eisenhower when he was coach at the old St. Louis Academy in San Antonio, now St. Marys University, did just that -- and it worked.

The general and Keller discussed the old days at St. Louis for a while after Keller introduced himself and Ike said:

"I'd never forget that red hair!"

Eisenhower Still Leads Straw Votes

Democrats in Medina County swung into action publicly this week, evidently spurred on by the visit last Saturday of their champion to Uvalde and the Alamo City.

Gov. Adlai Stevenson, carrying with him numerous of Texas' top echelon Democrats who have remained loyal to the national party, including Lyndon Johnson, Sam Rayburn and various congressmen, breakfasted with former vice president John Nance Garner in Uvalde last Saturday.

An enthusiastic crowd of 700 gathered on the lawn in front of Tully Garner's home to cheer the governor prior to his departure to San Antonio.

Back in Hondo, Stevenson supporters announced a meeting of all Democrats for the Illinois official would be held next Wednesday and scoffed at the results of polls which gave Gen. Eisenhower a big majority.

One pointed out that since 1916 Medina County has voted Republican only twice, once in 1920 and again in 1944. He said that during the past three national elections, the percentage showed 52 1/2 per cent of Medina County voters cast Democratic ballots and that one of those elections went Republican.

In 1948, he added, the percentage for the Democrats was 56 per cent, or 1,875 to 1,467 for the Republicans, "another year the GOP expected to walk off with Texas in its pocket."

Among those at Uvalde or San Antonio to welcome Gov. Stevenson were Wilfred W. Wernette, J. T. Lawler, Miss Ruth Lawler, Miss C. Genevieve Lawler, Miss Mary Lou Coffey and Miss Ruth Lionberger, all of Castroville.

In talking with Sam Rayburn on Republican strength in this part of Texas, Miss Ruth Lawler was assured by Rayburn "Texas will go Democratic." While refusing to predict the number of votes by which the party expected to win, Rayburn said the votes would be sufficient "for a victory of the party from top to bottom."

Meanwhile Gov. Stevenson showed an increase over previous weeks in Anvil Herald straw voting. The latest straw executive polled six hundred county ballots this week, the largest number since the poll began five weeks ago.

Gen. Eisenhower supporters however, continued to pour votes into the Anvil Herald office for their champion. Fifteen more ballots were counted for the GOP candidate, bringing the grand total to 88 for Ike and 21 for the Democratic nominee.

Deadline in the publication's poll is next Tuesday, Oct. 28. Those who have not cast their ballot for their choice and intend doing so are urged to clip the ballot on the editorial page, mark their preference, and mail it to the Anvil Herald office in Hondo. Ballots received after that date will not be counted.

As an editorial service to its readers the Anvil Herald has printed a sample ballot on pages 6A and 7A. Persons who are not sure of how they want to vote are urged to contact anyone qualified to explain the ballot and learn the proper usage of it.

Sample ballots are also being distributed by Medina Eisenhower backers who paid for the printing of the devices. Purpose of the distribution, according to Mrs. Vance, is much the same as the Anvil Herald's sample ballot to familiarize voters with the ballot prior to election day.

Mrs. Vance said this is the first time in Texas history the nominees themselves have been named on the ballot. Prior to this, she said, the electors were listed.

The Medina County Republican leader pointed out that as a result of cross filing of most of the Democratic candidates, it is now possible to vote for most Texas officials on the GOP ticket.

She said the distributing of the sample ballot is a public service being performed by the Medina County Texans for Eisenhower Committee.

Mrs. Vance added that W. T. Hardy, in his advertisement in the Anvil Herald next week will explain how a Democrat or a Republican can vote for Eisenhower.

52 Run Afoul Of Hondo Parking Meters

Fifty-two Medina motorists were given pause last week as Hondo's parking meters went into effect.

That was the number of tickets handed out by Police Chief R. L. Tucker to drivers who ignored, or didn't notice, the meters along the curbs.

During the same period from Monday, Oct. 13, through Monday, Oct. 20, \$12.24 in fines were paid.

Martin Noonan, city secretary, said most of the fines were paid within the 24-hour grace period. Only 25 cents is charged violators who pay off within that time. A charge of \$1 is levied on those who delay longer than one day.

Noonan, who told of one woman who delayed paying her fine because she was afraid of the result-

ing "notoriety," said even those who oppose the meters pay off with grudging good humor.

The official said most favorable comment for the new meters came from housewives who now can find a place to park while doing the family shopping.

More and more people are using the meters, Noonan said, and he added that acceptance is more than gratifying to the city officials.

Noonan concluded that at the end of the 9-month trial period, an election would be held as promised by the city. Proponents and opponents of the devices will then have an opportunity to decide the future of Hondo parking meters.

HUNTERS URGED TO CHECK FIRES

AUSTIN-The executive secretary of the Game and Fish Commission said cooperation of hunters and outdoorsmen generally is needed to avert a catastrophe to woods and forests from fire.

He said the woods and fields in most of the state have been reduced to extreme inflammability by the prolonged drought. He added that some fires already have caused great property loss as well as tragic loss to wildlife.

The secretary quoted a letter from the Texas Forest Service to emphasize his appeal. The letter, signed by D. A. Anderson, head of the Research & Education Department, said in part:

"Of increasing importance are the fires attributed to hunters. The fires charged to hunters are no doubt caused through negligence but nonetheless they are increasing our fire problem.

"I felt that you could possibly assist us immeasurably by calling attention to hunters to the condition which presently prevails in the East Texas area and asking them to take every possible precaution in preventing fires. Not only are the forest resources at stake, but the wildlife as well."

The Executive Secretary suggested that Texans in the field can prove their understanding of the peril to conservation by not only preventing fires but by offering to help control any fires they may encounter.

A VIEW ON PARKING METERS

Dear editor:

Passing through Columbus, Texas, today en route from Hondo to Houston, I noted that all the parking meters had been removed from the pipes in Columbus. The Council had voted to remove the meters at the end of the trial period. LOSS OF BUSINESS is the reason. "Huge" success of parking meters darn near BROKE every merchant in Columbus!—Same is true at San Marcos, where a big fight is on, too!—Hope Hondo can withstand the trial test.—You know parking meters are no good in small cities like Hondo and all they do is to stir up consternation and trouble.—THANKS.

FARMER SOLD ON SOIL TESTS

COLLEGE STATION-May farmers are not sold on the value of soil testing but Edwin Sager of the Arnecke community, DeWitt County, is not now numbered among this group.

Last spring Sager visited the office of DeWitt County Agent Dewey Compton seeking information as to the grade and amount of fertilizer he should use to insure a good crop of red top hay. The county agent suggested that a soil sample from the field to be planted be submitted to the laboratory of the Texas Agricultural Extension Service at College Station.

The suggestion was carried out but when the results of the analysis and the accompanying recommendations were returned to Sager, he returned to Compton with the remark that he couldn't afford to use that much fertilizer under his hay crop. The recommendation was that 400 pounds of 10-10-0 fertilizer be applied per acre.

There were good reasons for questioning the recommendation, says the county agent. The land was an eight acre block that was being rented. It had been in cultivation for many years and was a poor lime rock soil. The best corn yield that could be expected from it was about 20 bushels per acre and conditions had to be right to get such a yield. The doubts thus were justified.

After further discussion, Sager decided to follow the recommendation made by M.K. Thornton, Extension agricultural chemist who has charge of the laboratory. And that is why today he is a strong believer in soil testing.

In July, he cut and baled 1,073 bales of excellent red top hay from the eight acres. That figures 134 bales per acre and at market value the crop was worth \$167.50 per acre. The cost of seed-and he seeded heavily-and fertilizer was \$22 per acre and labor for planting and baling pushed this to \$59.58. A little simple arithmetic shows a net income per acre of \$107.92.

Compton concludes in his report that very few fields of cotton in the county will yield such a return. Sager concludes the dollar he spent for the soil test was the best investment he had ever made.

Do men who make beer study geography?

A Brewmaster studies a lot of things—chemical engineering, for example—but not geography. Why should he? If he can brew a truly fine beer, he can brew it anywhere — including Texas. That's why this summer at the famous Antwerp, Belgium Exposition in competition with the world's finest beers, Texas-brewed Pale Dry Grand Prize received a Gold Medal award!

Grand Prize is *premium quality* beer because only the finest ingredients, including Texas rice and pure, deep-rock artesian water go into the brewing kettles. Business In Review

Always ready to give your car the best of service are the employees of Tommy's Gulf Station, two blocks west of the stoplight on Hwy. 90. Left to right standing are Tommy Timmerman, owner, Smiley Burnette and Clyde Schulte. Kneeling are Sgt. Chuck Gelsthorpe, Hondo Air Gordon Mechler, and Jimmy Timmerman.

Tommy's Gulf Station Offers Top Buys In Tires

Some of the best tire buys in Hondo are found at Tommy's Gulf Station, located two blocks west of the stoplight in Highway 90.

Tommy Timmerman, owner and operator of the station, receives tires straight from Gulf Tire and Supply in Fort Worth and gives you the benefit of the savings Timmerman is the exclusive wholesale and retail dealer for Gulf tires, batteries, and accessories in Hondo. The station handles all types of tires, not only for cars, but for tractors and farm implements.

Offering good trade-in prices, Timmerman's Gulf Tires carry a 24 months or 24,000 mile written guarantee.

Advising car owners to prepare their cars for winter now, the station owner says your radiator should be flushed, refilled and Gulf's permanent Ethylene-Glucol Anti-Freeze added to give sure-fire protection.

Other pointers are grease and oil change, tightening radiator hose, and checking thermostats which may need replacing.

The station handles a line of lubricants not to be found in the everyday service station and that's Gulf's line of outboard gear lubricants.

Another added feature for motorists is Gulf's Tour Guide Service. If you are planning a trip, just drop in and ask Tommy for a card on which you put your name and address and at no charge Gulf send you the best and most scenic route to your destination.

Asking a lieutenant from Hondo Air Base what his opinion was of the station's service, he replied, "At Tommy's Station I get the best in courteous, efficient servicing, and they do the best wash job in town."

Free pick-up and delivery service accompany wash and grease jobs. Rates on services are wash and grease - \$1.00 each; Simonizing - \$10.00; wheel-packing - \$5.00 a wheel; and flats (on all types of vehicles) \$5.00 up.

Handling Gulfpride Oil, the station sells it from 25c to 45c.

Gulfpride is the world's only motor oil refined by the Alchlor process as well as by conventional methods. Because it's double refined, Gulfpride goes farther before you have to add a quart... forms a minimum of hard carbon, and keeps your engine in better shape longer.

After every 1,000 miles your car needs new lubrication. Gulfex Registered Lubrication is the improved service that replaces ordinary greasing. At Tommy's station you will be greeted pleasantly and served willingly and well.

In addition to your ordinary oil needs are Purator Oil Filter Refill, Wynn's Friction Proofing Oil, and Pyroil.

Timmerman has lived in Hondo

Comets Take Win From Hallettsville

By GERALD KEMPF
CASTROVILLE—The St. Louis Comets of Castroville squeezed out a 14 to 12 decision over the Sacred Heart Indians of Hallettsville here last week.
The Comets struck first as they scored twice in the second quarter. On the second play of the second period Quarterback Harold Keller pitched a 30-yard pass to Left End Charles Haby for the initial score of the contest. Right End Clyde Bippert booted the extra point. In the closing minutes of the first half the same combination clicked again as Keller once more threw to Haby for a TD on a pass play covering 20 yards. Bippert converted successfully again.
The Comets were in command the entire first half rolling up 7 first downs to 0 for the Indians.
But the Sacred Heart eleven came fighting back in the second half. Trailing 14 to 0 going in to the last five minutes of the game, Fullback Leon Hessler took to the air lanes. Immediately they began to click. Hessler hit Danny Gramann with a short screen pass and the latter raced 44 yards before being pulled down. On the very next play Kessler chunked to Daniel Pesek for 36 yards and a score. A plunge for the extra point failed.
Although trailing eight points with only a couple of minutes left to play the Sacred Heart Indians had not given up. Following an intercepted Comet aerial, the Indians began to roll again. After moving the pigskin to the three yard stripe by means of a deadly passing attack. Hessler flipped a short pass to Pesek for their second score. A plunge attempt for the extra point failed and the final score stood St. Louis-14, Sacred Heart-12.
Harold Keller and Charles Haby led the Comets offensively while Mark Kempf, Lynore Tschirhart, and Keller excelled on defense.
On Friday, Oct. 23, the Comets will travel to Victoria to meet the St. Joseph Flyers of that city. This game will decide the championship of the South Texas Catholic Interscholastic League and should prove an exciting contest.

Vandal Floods Gas Tanks In Natalia Monday night

NATALIA—Many stories have been written about the meanest man in town, but we believe the "Meanest Man In Texas" was in Natalia Monday night.
When Max Hitzfelder, attendant at Hanson's Service Station opened for business early Tuesday morning, little did he know that he was selling water through the gas pumps, and several of their early morning customers as well as motorists on the highway bought freely.
Before the hour had passed he began getting calls for help, the car had stalled, it would sputter and die. A quick check revealed that some one had removed the

tops from the underground gas tanks and run into each of them more than 100 gallons of water. This amount was determined because the foot valve in the tanks is set so it will not pick up the last 100 gallons in the tanks, and as water goes to the bottom in gasoline tanks it is known that each tank had received more than that amount.
As soon as this discovery was made all operations ceased, cars were towed in and the gas tanks drained and blown out, carburetors cleaned and the gas replaced, with new stock.
Besides all the inconvenience caused motorists, many Kelly field workers failed to get to work on time, and some perhaps not at all.

According to Charles F. Hanson, owner of the station, he lost approximately 300 gallons of gasoline through replacing purchases of customers and loss in the operation of removing the gas from hand pumps, necessary because the electric pumps will not pick up the last 100 gallons in the bottom of the tanks.
No motive has been established for the act, and it definitely was not an accident, according to local officers who are investigating.

He is survived by brothers Joe Haby, Comfort; Leo Haby, Castroville; sisters, Mrs. Mary Hanft, Houston, and Miss Ida Haby, Castroville.

Funeral services were held Oct. 14 at St. Louis Catholic Church. Interment was in the St. Louis Cemetery at Castroville.

Eagles Romp Over Southwest Dragons, 28-0

LACOSTE—Sparked by the fine offensive play of Quarterback Edwin Hutzler and End Ernest Hinojosa, plus the stellar line play of Sylvan and Bobby Mangold and Edward Bohl, the LaCoste Eagles romped over the Southwest Dragons, 28-0 in a District 31-B encounter played under the lights on the new Southwest Athletic field below Macdonia.

The Eagles stacked up their margin of victory with 14 second period and fourth period points.

After a scoreless first period, with nothing more spectacular than the exchange of the ball, Coach Scallorn's LaCoste boys got under way early in the second stanza when Sylvan Mangold knocked a Dragon punt on the Southwest two yard line.

Halfback Chano Espino sliced off tackle on the next play for the score, and End Ernest Hinojosa moved back in position, in the role formerly occupied by Fullback Wesley Olivian, who was sidelined by an injury in the first period, to kick the first of four extra points for the evening.

The second Eagle score came later in the period with the recovery of a Southwest fumble on the Dragons 23 yard stripe setting the stage, after which the Eagles pushed to a first down on the 12 before Hutzler hit Hinojosa with a touchdown pass. Hinojosa sent his shakiest boot through the uprights and midway LaCoste lead 14-0.

The third period went scoreless when a 40-yard pass and run play from Hutzler to Hinojosa for a would-be LaCoste TD was nullified by a five yard LaCoste off-side penalty.

The revitalized Dragons showed their only threat of the evening later in the period as they pushed to the LaCoste 25 yard line on three first downs, also a complete game total, on two pass plays

from Rosario Carillo to End William Hill, plus a 15 yard LaCoste clipping penalty.

LaCoste, regaining possession on their 25 yard stripe moved 75 yards for their opening fourth period score, with Hutzler doing most of the carrying chores.

Hutzler climaxed the drive on a run of 44 yards. Final Eagle score was made by Chano Espino when he intercepted a Southwest pass on the 15 yard stripe and skirted the Dragons for the score. Hinojosa added the point from placement following both scores.

Bobby Mangold set up another would-be Eagle score late in the first period with an interception on the Southwest 27 yard line, but time ran out with the Eagles on the Dragon five following two first downs.

LaCoste racked up 11 first downs to 3 for the Dragons, were penalized 50 yards, while the Dragons had 20 yards clipped. In pass interceptions LaCoste led 3 to 1, while Southwest held a 2-1 edge in fumbles recovered.
